

The Shanghai plant (China)

Client:	Biomax Environmental Technology LTD Suite 3210-11, Tower, 6 The Gateway Harbour City Kowloon Hong Kong
Treatment capacity of the plant:	227 500 t/y of municipal solid waste 41 000 t/y of biowaste
Type of contract:	Engineering, supply of process equipment and start-up
Realisation:	Valorga International
Start-up date:	2008
Plant description:	Anaerobic digestion (Valorga)
Volume of digesters:	6 x 4 500 m ³
Operation conditions:	Thermophilic
Gas yield:	100 Nm ³ /t input digestion
Gas use:	Cogeneration
Amendment use:	Agriculture

Address of the plant:

Putuo District
Shanghai
China
